## Webinar: Greenhouse vs. Indoor Cannabis Growing

10/4/2018 - 10/4/2018

1:00 PM Eastern/12:00 PM Central

What's the difference between growing cannabis in a greenhouse vs. an indoor "grow" using lights? A lot, as we will find out from Nick Earls of Wadsworth Control Systems. Nick, who studied Controlled Environment Agriculture under Gene Giacomelli at the University of Arizona, has experience working in both indoor and greenhouse cannabis operations in Colorado. Now he's the cannabis specialist for Wadsworth. Nick will cover the following topics:

- Equipment Similarities and Differences
- Power Consumption
- Light Dep/Light Pollution
- Single Source Lighting vs. Supplemental
- Greenhouse vs. Indoor Commercial Environmental Controls
- Integrated Pest Management

It's a must-attend webinar!

**Hosted by:** Chris Beytes, Editor, *GrowerTalks/Green Profit* and Acres Online.

**Sponsored by:** the National Greenhouse Manufacturer's Association, Ball Publishing and Wadsworth Control Systems.
