Natural Design Workshop: An Intensive Two-Day Workshop

8/5/2019 - 8/6/2019

Shaw Nature Reserve, Gray Summit, Missouri

Developed by Larry Weaner, this intensive, interactive workshop will provide concrete, real world guidance for designing and documenting all phases of native landscape development. Attendees will receive an extensive manual (100+ pages) that documents all aspects of the program, including plant selection criteria, plant recommendations, ecological process-based management specifications, and guidance for maximizing the aesthetic and experiential appeal these landscapes can provide.
